Tel.: (1)412-709-0657 | Email: yuwenz020515@gmail.com | [LinkedIn](#)

EDUCATION

Carnegie Mellon University, Pittsburgh, PA	08/2025-12/2026
Master of Information System Management-Business Intelligence and Data Analytics (GPA:3.86/4.0)	
• Related Coursework: Database Management, Introduction to Machine Learning, Accounting and Finance	
Shanghai University of Finance and Economics, Shanghai, China	09/2020-06/2025
Bachelor of Engineering in Data Science and Big Data Technology (GPA:3.6/4.0)	
• Awards: Second Prize of Collegiate Computing Competition (<i>Top 5%</i>); Third Prize of People's Scholarship (<i>Top 12%</i>)	

WORK EXPERIENCE

Ctrip.com	12/2024-05/2025
Data Analytics Intern	Shanghai, China
• Boosted Labor Day hotel revenue by 20.9% by analyzing user behavior patterns(e.g., booking window, price sensitivity) using Python and Excel , advising business development teams on campaign selection and inventory plans	
• Collaborated with data engineers and product team to translate business needs into database schema and develop 5 ETL-ready database tables, improving pipeline efficiency and cross-team data consistency	
• Drove market assessment and strategy optimization by delivering 80+ ad hoc analyses using SQL on hotel operational datasets and product data	
• Supported recommendation-system product ideation and testing by diagnosing bottlenecks through funnel analysis across different stages(traffic-conversion-revenue); generated data-driven narratives for stakeholder decision-making	
eBay	08/2024-11/2024
Business Analytics Intern	Shanghai, China
• Conducted A/B testing to compare user click-through rate (CTR) under different discount banner design, delivering recommendations that optimized user engagement in e-commerce campaigns and drove an 8.6% lift in order volume	
• Enhanced data efficiency and accuracy by building 2 Python/SQL ETL pipelines to scrape and clean 12K+ product data records from web sources and transform them into analysis-ready datasets	
• Designed Tableau dashboards by translating key performance metrics into structured views; visualized market trends in campaign performance to identify patterns, optimization opportunities and support reporting	
Dewu (POIZON)	07/2023-10/2023
Data Operations Intern	Shanghai, China
• Performed root-cause analysis of defect rates anomalies through metric decomposition and data segmentation, enabling operations teams to adjust processes in subsequent cycles	
• Analyzed product performance using SQL and Excel(Pivot Tables, VLOOKUP), collected and processed 800+ daily transaction records, evaluating YoY/MoM trends in order volume, GMV, and UV to develop reports and presentations	
• Streamlined operational workflows by designing and documenting standardized SOPs for gift-box selection and listing	

PROJECTS

Time Series Modeling for Power Outage Forecasting	02/2026-04/2026
Team Member	Pittsburgh, PA
• Conducted exploratory data analysis on high-dimensional weather data to identify patterns and feature relationships, presenting insights through interactive visualizations in Plotly and Tableau	
• Contributed to training LSTM, SARIMA, and two-stage XGBoost regression models through data cleaning, feature engineering, and hyperparameter tuning	
Text Mining for Earnings Meeting Minutes	07/2024-11/2024
Research Assistant (Supervised by Prof. Han Yan, UBC)	Shanghai, China
• Extracted and structured 100,000+ textual records from corporate earnings minutes using GenAI and NLP techniques	
• Fine-tuned Word2Vec and BERT models to improve AI-keyword recognition and quantified corporate digital transformation through keyword frequency analysis	

SKILLS

- Programming & Machine Learning:** SQL, Python (NumPy, Pandas, Scikit-learn, PyTorch), R; Feature Engineering, Random Forest, Gradient Boosting, Clustering, Deep Learning
- Data Tools & Platforms:** Power BI, Tableau, Snowflake, Azure, Hadoop
